

# Curriculum Vitae

*Carlos Henrique Cabral Duarte*

March 12, 2018

## 1 - Identification

1. Name: Carlos Henrique Cabral Duarte
2. Date of birth: 01/July/1970
3. City of birth: Juiz de Fora, MG, Brazil
4. Nationality: Brazilian citizen

## 2 - Personal Data

1. Affiliation: Dione Duarte†  
Aracy Cabral Duarte
2. Marital status: Married
3. Profession: Systems Analyst
4. Residential address: Rua São João Batista 27/903, Botafogo  
Rio de Janeiro, RJ, Brazil, 22270-030
5. Commercial address: Av. República do Chile 100, Centro  
Rio de Janeiro, RJ, Brazil, 20031-917
6. Telephone numbers: +55 (21) 3497-7838 (residence), +55 (21) 98518-7838 (mobile),  
+55 (21) 2172-8143 (office)
7. E-mail: [carlos.duarte@computer.org](mailto:carlos.duarte@computer.org); [cduarte@bndes.gov.br](mailto:cduarte@bndes.gov.br)
8. Web page: <http://www.chcduarte.com>; <http://www.bndes.gov.br>

## 3 - Education

1. Postgraduate studies (1994-99):  
Department of Computing, Imperial College, London, UK  
Degree: PhD in Computer Science  
Advisor: Prof. Dr. Thomas Stephen Edward Maibaum
2. Postgraduate studies (1992-94):  
Department of Informatics  
Pontifical Catholic University of Rio de Janeiro (PUC-Rio), RJ, Brazil  
Degree: MSc in Informatics  
Advisor: Prof. Dr. Roberto Ierusalimsky  
Final G.P.A.: 9.7

3. Undergraduate studies (1988-92):  
Department of Mathematics  
Federal University of Juiz de Fora (UFJF), MG, Brazil  
Degree: Joint BSc in Mathematics and Computing  
Advisor: Prof. Michel Heluey Fortuna  
Final G.P.A.: 7.7
4. Primary and secondary school (1974-87):  
Colégio dos Jesuítas, Juiz de Fora, MG, Brazil

## 4 - Languages

1. *Portuguese*: My native language.
2. *English*: Skillful reading and writing, but a bit deficient in conversation (C2).
3. *French and German*: Basic comprehension of written and spoken language (A2).
4. *Spanish*: Comprehension of written and spoken language.

## 5 - Professional Experience

### 5.1 - R&D and Financing

1. *Senior Member of Technical Staff* (since 1993<sup>1</sup>)  
National Bank for Economic and Social Development — BNDES  
Address: Av. República do Chile, 100, Centro  
Rio de Janeiro, RJ, Brazil, 20001-970  
Weekly journey: 35 hours

#### Professional History:

- Indirect Operations Area — AOI  
Department of Accreditation of Machinery, Equipment, Systems and Components — DECRED  
Period: 2012-
- Industry Area — AI  
Information Technology Department — DETIC  
Period: 2003-2012  
Role: Operations Manager and Deputy Head of Department
- National Information Technology Committee — CATI  
Period: 2003-2012  
Role: Board Member (representative of BNDES)

---

<sup>1</sup>Contract interrupted from 15/09/1994 to 14/09/1998.

- Society for the Advancement of Quality Software — Softex Society  
Period: 2003-2012  
Role: Deputy Board Member (representative of BNDES)
- Logistics and Telecommunications Area — ALT  
Electronics Complex Department — GECEL  
Period: 2002  
Role: Accounts Manager
- Operations Area 1 — AO1  
Department of Software Operations — GSOFTE  
Period: 1998-2001
- Human Resources Area — AA  
Department of Systems — DESIS  
Period: 1993-1994

**Description:**

From January of 1993 to August of 1994, I worked as a systems analyst maintaining and developing new functionalities for the credit operation system of BNDES and also developing a new software system to support the supervision of financed projects by technical staff members. In these activities, an IBM 9021 was used. The software components were implemented using the NATURAL 2 language so that databases managed by the ADABAS system could be accessed.

Afterwards, I became involved in training the initial users of the latter system. I also made an attempt to downsize parts of that system to an operational environment consisting in Novell/Netware local networks and software components developed using Fox Pro. This new system architecture took into account the adoption of an ODBC platform by BNDES.

In these activities, I recurrently contributed to the standardization of software development activities at the bank, particularly the production of user interfaces and database systems. We put our standards into practice so many times that ended up defining a software development approach based on software component reuse and rapid prototyping, which had been used for more than a decade.

After returning to BNDES in 1998 from my period on leave of absence, I worked first as a member of technical staff (from 1998 to 2001) and afterwards as a financing manager (from 2002 to 2012), eventually also as deputy head of department. My duties were to visit information and communication technology companies, foster the production of business plans, to assess their feasibility and, when appropriate, to recommend these plans for financing by the bank.

My main achievement in these roles, together with other colleagues, was to propose, implement and obtain profits from new financing instruments particularly devoted to support the Brazilian software industry. As a direct result of my activities, more than 60 software companies obtained funding to implement their business plans, most of which through credit, but some of them also using venture capital instruments. In this period, I was a key person in charge of supporting the growth

of two formerly medium size enterprise resource planning software companies which are currently listed in the Bovespa Stock Market (consequently having participated in the planning and structuring of each IPO). As a secondary achievement, I also performed a similar role regarding the financing of non-profit R&D organizations of the Information and Communication Technology sector. In 2007, my biography was published by Marquis Who is Who in the World due to contributions to the Brazilian software industry.

Lately, after being relieved from the role of manager (from 2012 onwards), my role has been to analyze machinery, equipment, systems and components (particularly of the medical equipment sector) to assess if they fulfill the requirements to be accredited by BNDES, thereby becoming eligible to have their sales financed.

2. *Scientific Programmer* (1989-92<sup>2</sup>)

Brazilian Farming and Cattle Breeding Research Company — EMBRAPA

Dairy Cattle Research Centre — CNPGL

Quantitative Methods Sector — SMQ

Address: Rua Eugênio do Nascimento, 610, Dom Bosco

Juiz de Fora, MG, Brazil, 36088-330

Weekly journey: 40 hours

**Description:**

The SMQ was devoted to collect, process and analyze zoo-technical data for research, obtained from dairy cattle cooperatives and breeder associations. There, my activities were related to the development of a software system which was to be deployed throughout the country in order to collect data and distribute the results of centralized statistical analyses concerning genetic improvement of dairy cattle. At that time, Brazil did not have a nationwide computer network, which led us to design the exchange of data through floppy disks dispatched by post. The client applications were meant to run on IBM-PC machines and were implemented using Turbo Pascal. A UNIX machine should be used to concentrate the data and perform statistical analyses using software written in C and FORTRAN 77. I took part in the analysis, design and implementation of the whole system.

During the development of that software system, I had been supervising the activities of a trainee. In addition, I helped organizing a national meeting among breeding association representatives to standardize data in the information system, since there were many different automated systems running in distinct places of the country.

As eventual activities, I trained users and took part in the standardization, configuration and installation of equipment and software. I also attended to a meeting to discuss the National Information System of Farming and Cattle Breeding Research with a representative of the Interamerican Development Bank (IDB), since EMBRAPA was trying to obtain external funding to support the development of that system.

---

<sup>2</sup>Contract interrupted between 03/1992 and 12/1992.

## 5.2 - Teaching

1. *Lecturer* and  
*Academic Coordinator of the Programming Language Disciplines:*  
Information Systems Undergraduate Course (2001–2009)  
Institution: Department of Informatics  
University Estácio de Sá (UNESA)  
Address: Rua do Bispo 83, Rio Comprido  
Rio de Janeiro, RJ, Brazil, 20261-902  
Weekly Journey: 12 hours  
Type: BSc course
2. *Part-Time Lecturer:* Distributed Systems (09-12/1999)  
Institution: Department of Systems and Computing Engineering — DE-9  
Military Institute of Engineering — IME  
Address: Praça General Tiburcio 80, Urca  
Rio de Janeiro, RJ, Brazil, 22290-270  
Journey: 52 hours  
Type: MSc course
3. *Temporary Lecturer:* Compiler Construction (07-08/1999)  
Institution: Department of Computer Science — DCC  
Federal University of Juiz de Fora — UFJF  
Address: Barão Geraldo  
Juiz de Fora, MG, Brazil, 36016-970  
Journey: 60 hours  
Type: BSc course
4. *Teaching assistant:* Many BSc and MSc courses (1996-97)  
Institution: Imperial College, Department of Computing  
Address: Huxley Building, 180 Queen's Gate  
London, UK, SW7 2BZ
5. *Lecturer:* Logical Design of Database Systems (12/1992)  
Institution: Brazilian Petroleum S.A. — PETROBRÁS  
Address: Southeast Human Resources Development Centre — CEN-SUD  
Rua General Canabarro, 500, Tijuca  
Rio de Janeiro, RJ, Brazil, 20271-201  
Journey: 24 hours  
Type: Short term graduate course

## 5.3 - Research

1. *Research Fellow:* I was a Brazilian National Research Council Fellow from April of 2001 to March 2003 (CNPq 2C). The title of my research project was “Methods, Techniques and Tools for Rigorous Development of Open Distributed Systems”.

2. *Invited Speaker*: I was invited to give talks at the Federal University of Rio de Janeiro, RJ, Brazil (14/06/1999), Federal University of Juiz de Fora, MG, Brazil (13/11/1998 and 02/10/2000), at the University of Birmingham, UK (14/03/1997) and to provide the keynote during the 16th Brazilian Symposium on Software Quality (SBQS 2017).
3. *Guest Speaker*: I presented scientific unpublished work in the following thematic network workshops of the European Community research framework: EUROLAT-IS (2000, Rio, Brazil, also working as a session broker) and ISCORE (1995, Evry, France). My research was also presented at the 4th Imperial College Theory and Formal Methods Session Workshop (1998, Bath, UK).
4. *Referee*: I have done some refereeing for the Journal of Industrial Information Integration (2017-8), IEEE Access (2017-8), Journal of Computational Methods in Sciences and Engineering (2016-7), Journal of Systems and Software (2002-6), IEEE Software (2002), Information Processing Letters (2000-1), Higher Order and Symbolic Computation Journal (1998) and the Journal of Logic and Computation (1997-8).
5. *Reviewer*: I have also worked as a reviewer for the International Requirements Engineering Conference (RE 2014-7), International Conference on Software Engineering Advances (ICSEA 2016-7), International Workshop on Conducting Empirical Studies in Industry (CESI 2015), International Conference on Algebraic Methodology and Software Technology (AMAST'98), the International Conference on Fundamental Approaches to Software Engineering (FASE'98 and FASE 2001) and the International Colloquium on Automata, Languages and Programming (ICALP'97).
6. *Ad hoc Referee*: I have worked as an *ad hoc* referee in evaluating R&D and research projects submitted to many Brazilian funding agencies: the Coordination of Graduate Level Human Resources Improvement (CAPES 2010-4), the Brazilian National Research Council (CNPq 1999-2003), and other public foundations belonging to local state governments in Brazil (FACEPE 2001 and Fundação Araucária 2002-9).

## 5.4 - Temporary Jobs and Visits

1. *Visiting researcher* (08-10/1995)  
Intelligent Network Platform Department — INDP  
Hewlett-Packard Laboratories, Bristol — HPLB  
Address: Filton Road, Stoke Giford  
Bristol, UK, BS12 6QZ  
Supervisor: Dr. Martin Sadler  
Weekly journey: 39 hours
2. *Computer programmer (intern)*<sup>3</sup> (05-11/1988)  
Data Processing Centre — CPD  
Federal University of Juiz de Fora — UFJF

---

<sup>3</sup>Part time.

Address: Barão Geraldo  
Juiz de Fora, MG, Brazil, 36016-970  
Supervisor: Prof. Dr. Guilherme Horta Travassos (COPPE/RJ)  
Weekly journey: 12 hours

## 5.5 - Participation in Examining and Judgment Boards

1. *Integral Equations via Domain Theory* (07/2008)  
Institution: Polytechnic Institute, UERJ  
Type of participation: external examiner  
Type of work: PhD thesis in Portuguese  
Candidate: Antônio Espósito Junior
2. *Credit Analysis using Artificial Intelligence with Validation Data from the BNDES Credit Card* (03/2008)  
Institution: Polytechnic Institute, UERJ  
Type of participation: external examiner  
Type of work: PhD thesis in Portuguese  
Candidate: Oswaldo Luiz Humbert Fonseca
3. *Corporate Credit Risk Analysis based on Artificial Neural Networks* (07/2003)  
Institution: Informatics course, University Estácio de Sá  
Type of participation: Student supervisor and board chair  
Type of work: BSc dissertation in Portuguese  
Candidate: Inah Garritano
4. *A Software Artifact Generator Production Process* (08/2000)  
Institution: Department of Informatics, PUC-Rio  
Type of participation: deputy external examiner  
Type of work: PhD thesis in Portuguese  
Candidate: Luiz Paulo Alves França
5. *COJEM — Young Software Entrepreneur National Award* (12/1998)  
Institution: Softex Society — FUMSOFT  
Type of participation: Judgment board member as BNDES representative  
Type of work: Business plans in Portuguese  
Candidates: Software companies generated within the Softex System
6. *ASSESPRO Award — Best Brazilian Software in 1993* (07/1994)  
Institution: Association of Software Companies and Data Processing Services  
Type of participation: Judgment board member as BNDES representative  
Type of work: Brazilian software produced in 1993  
Candidates: Brazilian software companies
7. *A Process Model for Scientific Software Development* (08/1993)  
Institution: Mathematics course, UFJF  
Type of participation: Student supervisor and board chair

Type of work: BSc dissertation in Portuguese  
Candidate: Adilson Luiz Fernandes

## 5.6 - Event Organization and Participation

1. *22-26th IEEE International Requirements Engineering Conference* (RE 2014-8)  
Location: Karlskrona, Sweden (2014); Ottawa, Canada (2015);  
Beijing, China (2016); Lisboa, Portugal (2017); Banff, Canada (2018)  
Type of participation: Industry Program Committee Member (2014-8) and Industry Program Committee Co-chair (2016)
2. *11-13th International Conference on Software Engineering Advances* (ICSEA 2016-8)  
Location: Rome, Italy (2016); Athens, Greece (2017); Nice, France (2018)  
Type of participation: Program Committee Member
3. *3rd-4th International Workshop on Conducting Empirical Studies in Industry* (CESI 2014-5)  
Location: Florence, Italy (2014) and Austin, Texas, USA (2015)  
Type of participation: Member of the Organizing Committee in 2014-5 and since then Member of the Advisory Board
4. *36th International Conference on Software Engineering* (ICSE 2014)  
Location: Hyderabad, India  
Type of participation: Panelist and judge of the technologies submitted to the Ready-Set-Transfer Technology Transfer Panel
5. *21th IEEE International Requirements Engineering Conference* (RE 2013)  
Institution: Department of Informatics, Pontifical Catholic University of Rio de Janeiro  
Type of participation: Panelist and judge of the technologies submitted to the Ready-Set-Transfer Technology Transfer Panel
6. *Seminar on the Perspectives of Investment in Brazil* (2009)  
Institution: Brazilian Development Bank, BNDES  
Type of participation: Discussant of the study on Information Technology
7. *International Seminar on the Promotion of Innovation and Intellectual Property in Information Technology* (2008)  
Institution: Brazilian National Institute of Intellectual Property, INPI  
Type of participation: Organizing Committee Member
8. *1st-2nd National Seminar on the Results of the Information Technology Law* (2003/2006)  
Institution: Brazilian National Information Technology Committee, CATI  
Type of participation: Moderator of the panel on Medical Equipment(2003) and Mobile Telecommunication Devices (2006)

## 6 - Written Works

### 6.1 - Publications

#### 6.1.1 - Conference Proceedings

1. Andreas Jedlitschka, Ayse Benner, Carlos Henrique C. Duarte and Smita Ghaisas. *Proc. 4th International Workshop on Conducting Empirical Studies in Industry (CESI 2015)*. 36 pages. ACM Press. May 2016.
2. Xavier Franch, Nazim Madhavji and Carlos Henrique C. Duarte. *Proc. 3rd International Workshop on Conducting Empirical Studies in Industry (CESI 2015)*. 56 pages. IEEE Computer Society Press. May 2015.

#### 6.1.2 - Papers in International Journals

1. Carlos Henrique C. Duarte, Andreas Jedlitschka, Ayse Benner. 4th International Workshop on Conducting Empirical Studies in Industry (CESI 2016) - Post-workshop Report. *ACM Software Engineering Notes* 42(2):15-18. April 2017.
2. Carlos Henrique C. Duarte. Productivity Paradoxes Revisited: Assessing the Relationship Between Quality Maturity Levels and Labor Productivity in Brazilian Software Companies. *Empirical Software Engineering* 22(2):818-847. April 2017.
3. Carlos Henrique C. Duarte, Xavier Franch, and Nazim Madhavji. 3rd International Workshop on Conducting Empirical Studies in Industry (CESI 2015) - Post-workshop Report. *ACM Software Engineering Notes* 40(5):26-29. September 2015.
4. Carlos Henrique C. Duarte. Cooperative Development of a Software Industry. *IEEE Software* 19(3):84-87. March 2002.
5. Carlos Henrique C. Duarte and Tom Maibaum. A Branching Time Logical System for Open Distributed Systems Development. *Electronic Notes in Theoretical Computer Science* 67. March 2002.
6. Carlos Henrique C. Duarte and Tom Maibaum. A Rely-guarantee Discipline for Open Distributed Systems Design. *Information Processing Letters* 74(1-2):55-63. May 2000.
7. Carlos Henrique C. Duarte. Proof-Theoretic Foundations for the Design on Actor Systems. *Mathematical Structures in Computer Science* 9(3):227-252. June 1999.
8. Carlos Henrique C. Duarte. Moving Software to a Global Platform. *IEEE Spectrum* 33(7):40-43. July 1996.

#### 6.1.3 - Papers in Regional Journals

1. Carlos Henrique C. Duarte. 24th International Requirements Engineering Conference (RE 2016) — Industry track post-conference report. *Revista do BNDES* 46:313-323. December 2016. In Portuguese.

2. Carlos Henrique C. Duarte. A Decade of Support to the Information and Communication Technology Sector: Important Events and the Role of BNDES. *Revista do BNDES* 37:92–126. July 2012. In Portuguese.
3. Carlos Henrique C. Duarte and Carlos Eduardo C. Branco. Social and Economic Impacts of the Brazilian Policy for Information Technologies. *Revista do BNDES* 15:125–145. June 2001. In Portuguese.

#### 6.1.4 - Papers in Proceedings of International Events

1. Carlos Henrique C. Duarte. The Influence of Tax Incentive and Market Regulation Requirements on IT Companies: Empirical Evidence from the Brazilian Industry. International Workshop on Requirements Engineering and Law (RELAW 2016). In: *RE 2016 Workshop Proceedings*. pages 239–248. IEEE Computer Society Press. Beijing, China. September 2016.
2. Christof Ebert and Carlos Henrique C. Duarte. Requirements Engineering for the Digital Transformation: An Industry Panel. In *Proc. 24th IEEE International Requirements Engineering Conference (RE 2016)*. pages 4–5. IEEE Computer Society. Beijing, China. September 2016.

## 7 - Miscellaneous

I had to take part in two public competitions to be appointed to the positions in the Civil Service, where I have been employed. In the first case, for the scientific programmer job at EMBRAPA, I was approved in third place. In the second one, for the software engineer job at BNDES, I was approved in tenth place. Both competitions had an average number of 100 competitors per place.

Many Brazilian universities offered me a place in their Computing MSc courses, using research grants from CNPq, the Brazilian National Research Council. The local newspaper of my home town reported that I was graded as the top student in the admission processes of all these universities, although I do not have formal proof of this. They were the Federal University of Rio de Janeiro (UFRJ), the Federal University of Minas Gerais (UFMG), the State University of Campinas (Unicamp) both at the Department of Automation and Control (DAC) and the Department of Computing Science (DCC), and also the Potifical Catholic University of Rio de Janeiro (PUC-Rio). I was also supported by CNPq in my PhD studies and my thesis was nominated for the British Computer Society Distinguished Dissertation Award 1998.

I have been a member of the The Institute of Electrical and Electronic Engineers (IEEE), Computer Society, since 1991; Senior Member since 2012; and Distinguished Visitor from 2018 to 2020.
